

ICAR-NBFGR Commemorates World Environment Day with a Focus on Environmental Responsibility

Lucknow, June 5, 2024

ICAR-National Bureau of Fish Genetic Resources commemorated World Environment Day on June 5, 2024, under the guidance of Dr. U.K. Sarkar, Director, ICAR-NBFGR. This year's theme was "Land Restoration, Desertification, and Drought Resilience," accompanied by the slogan "Our Land, Our Future." The guest speaker, Dr. Sanjay Arora, delivered a talk on "Restoring Sodic Lands for Environmental Sustainability," emphasizing the need for strategic planning in the sustainable management of lands for future generations. Additionally, Dr. Arumugam, delivered a briefing on the environmental protection of marine ornamental resources at the ICAR-NBFGR's DST facility for marine ornamentals at Annamalai University, Tamil Nadu. The event featured a series of engaging activities for over 150 participants, including essay competitions for the Institute's research scholars on the topic of 'E-Waste Management for the Local Environment.'
